**SITE PLAN**

A site plan is a diagram of the property where the requested action is to take place. It is necessary to include a plot plan for most planning board actions on a parcel to demonstrate compliance with such things as set back requirements from property lines and roadways, distance requirements from septic systems to wells, ponds, lakes and streams. Drawings do not need to be to scale but distances indicated must be accurate.

**DIRECTIONS**

Draw a sketch of your property on a blank or graph paper indicating location of your well, septic, ponds, streams structures, etc. It is important to indicate the following distances: Road Frontage on all lots on splits and subdivisions, Distance to new property lines from structures, septic, wells, etc.
